Yes, you can close the report. I talked to both her and (b)(6), Contractor (from EUREST) last week. I also inspected the truck this morning. There were no other complaints and the chicken was pre-cooked and heated before it was served. But for food quality they did not use fresh salad. The salad was prepared Friday and serve the following week. As the result, the salad was wilted. This was addressed with the food truck manager last week.
